Andrea Boschin

SOFTWARE & CLOUD ARCHITECT · ENGINEERING LEADER
MODERNIZATION · AI DEVELOPMENT · TEAM LEADERSHIP

Profile

Software & Cloud Architect with more than 25 years of experience in enterprise software on the Microsoft stack, leading legacy modernization, cloud transformation and development teams on business-critical products. **Microsoft MVP** for ten consecutive years (2007–2017).

Key competences built over my career:

- **Transformation leadership:** legacy-to-cloud modernization of business-critical products (Delphi, Visual Basic 6) into cloud-native .NET / Azure platforms.
- **Architecture & governance:** multi-tenant SaaS, event-driven and microservices architectures, technical standards and review rules.
- **AI-driven engineering:** adoption of agentic AI in development teams (Claude Code, OpenAI Codex): AI-based development and work workflows, shared guidelines, agent configurations, AI-assisted code review and AI-accelerated legacy migration; initial experience with workflow automation; two personal apps built with AI and published on Google Play.
- **Team leadership:** coordination of multiple development teams in parallel (up to six), developer mentoring, Professional Scrum Master.
- **Business alignment:** coordination with management and with the sales department acting as Product Owner.

Today, as Head of Cloud Transition at Bludata, I lead the transformation of a long-established Delphi product into a cloud-native, multi-tenant SaaS platform on Microsoft Azure serving more than 4,000 customers. Previous domains include industrial IoT for the steel industry (Danieli), ERP and document management, IWMS and port management.

Key Skills

- Application Modernization
- Legacy-to-Cloud Migration
- Software Architecture
- Azure Cloud Architecture
- Multi-tenant SaaS
- Team Leadership & Mentoring
- Technical Governance & Standards
- Agentic AI Adoption
- AI-assisted & Multi-agent Dev
- Systems Integration
- Industrial IoT
- Agile / Scrum (PSM I)
- Azure DevOps & CI/CD
- Microservices & Event-driven
- .NET / C#
- ASP.NET Core
- Kubernetes & Docker
- SQL Server / MySQL
- Service Bus / RabbitMQ / Kafka
- Identity (Azure AD B2C, Keycloak)
- Angular / TypeScript
- Flutter / Dart

2007-2017

MVP Microsoft® Most Valuable Professional

Work Experience

Timeline

Bludata S.r.l.

- 2024 to Current

From 2/2024 to today

Software Architect and Head of Cloud Transition. Leading the transformation of an optical retail management system, originally built with Delphi, into a cloud-native, multi-tenant SaaS platform based on .NET 9/10 and Microsoft Azure, currently serving more than 4,000 customers.

- **Transformation leadership:** defined the target architecture and drove the migration from the legacy Delphi product to the new SaaS platform.
- **Azure cloud architecture:** designed the multi-tenant architecture using Azure App Services, Azure Functions and Service Bus, with a hybrid SQL Server / MySQL data layer, Azure AD B2C identity and event sourcing.
- **Delivery platform:** designed and built the automated deployment and update platform delivering the solution across the entire customer base through Azure DevOps.
- **AI adoption:** led the team's transition from GitHub Copilot to Claude Code and OpenAI Codex, establishing team-wide practices through shared guidelines, agent configurations (CLAUDE.md, AGENTS.md) and review rules.
- **AI-assisted legacy migration:** used AI agents to analyze Delphi code and business logic and accelerate its migration to .NET.
- **AI in DevOps:** introduced agents for pull request analysis, documentation generation and infrastructure scripting.
- **Leadership:** technical leadership of the development team and support to agile delivery.

Technologies: .NET 9/10, ASP.NET Core, C#, Entity Framework, SQL Server, MySQL, EventStoreDB, Azure App Services, Azure Functions, Azure Service Bus, Azure AD B2C, Azure DevOps, Claude Code, OpenAI Codex

Beantech S.r.l.

- 2020

From 11/2020 to 1/2024

Senior Solution Architect for an industrial IoT product for the steel industry (Danieli), ingesting high-frequency data, with stream processing, big data analysis and MLOps. Defined the software architecture and coordinated up to six development teams to deliver a reusable, configurable product deployed on Kubernetes, including DevOps pipelines and testing strategies.

Technologies: .NET 5/6, ASP.NET Core, C#, Python, SQL Server, MongoDB, InfluxDB, EventStoreDB, RabbitMQ, Kafka, Keycloak, Angular, Docker, Kubernetes, Azure DevOps

DBA Progetti S.p.A. – 2016

From 12/2016 to 11/2020

Architect, Scrum Master and tutor for IWMS and port management products, built on a message-based microservices architecture deployed on-premise and on Azure; contributed to the design and build of the microservices platform.

Technologies: ASP.NET Core, C#, SQL Server, MongoDB, RabbitMQ, WSO2 API Manager, Angular, Docker, Azure DevOps

Eurosystem S.p.A. – 2015

From 12/2015 to 12/2016

Senior Developer on a service-oriented platform integrated into the company portal, and on the migration of legacy Visual Basic 6 programs.

Technologies: ASP.NET, C#, Web API, Entity Framework, SQL Server, AngularJS

ASI S.r.l. – 2012

From 01/2012 to 12/2015

Senior Developer on the evolution of a custom ERP and document management product: UI/UX redesign, backend development, analysis and training of team members.

Technologies: ASP.NET, C#, WCF, WPF, Silverlight, Entity Framework, SQL Server

Freelance consultant – 2007 – 2017

2007–2017 (alongside employment)

During the MVP years: consultant, trainer and speaker for more than 35 client companies, supporting software design and development teams.

Earlier experience (1998 – 2011) – 1998 – 2011

2007 – 2011 · Select Digital Service / TMOB – Senior Developer, real-time GPS data platform

2005 – 2007 · MM-One – Developer, CRM portal and custom CMS (AirDolomiti website)

2004 – 2005 · Archeometra – Analyst/Engineer, .NET healthcare reporting solution

2002 – 2004 · Seven – Developer, SCORM e-learning platform with an early AJAX viewer

2000 – 2002 · Niunet – Developer, used-car sales portal for Il Sole 24 Ore

1998 – 1999 · Unisys – Consultant/Developer, R&D web publishing (ASP, Oracle 8i)

Personal skills

Mother tongue: Italian

English

LANGUAGES

UNDERSTANDING		SPEAKING	
Listening	Reading	Spoken interaction	Spoken production
B1	B2	B1	B1

Levels: A1 and A2: Basic user - B1 and B2: Independent user - C1 and C2: Proficient user
Common European Framework of Reference for Languages

Used regularly in Scrum ceremonies and technical discussions with international team members.

Communication skills

COMMUNICATION SKILLS

Experienced speaker: as a Microsoft MVP and in my roles I have presented technical talks to audiences of up to 200 people. Strong tutoring skills, developed training the developers of my teams.

Management skills

MANAGEMENT SKILLS

Coordination of multiple development teams and definition of team practices and standards, including the adoption of agentic AI in the development workflow. Certified Professional Scrum Master.

Education

EDUCATION

Continuous self-learning and personal projects

Ongoing self-directed learning in my own time, often in the evenings, applied to real products. I designed and built with AI two Flutter apps of my own, published on Google Play: itineride (itinerary planner for motorcycle trips, freemium with in-app purchase; itineride.it) and DJ Harmonic (key detection for DJs, with an on-device analysis engine written from scratch; djharmonic.it).

Professional Scrum Master I (PSM I)

2018 – Scrum.org, Milano

Diploma in Goldsmith Arts

1987 – National Institute of Art, Venice (Italy)

An education in craftsmanship that still shapes how I work: strong engineering principles applied with a creative mind.
