Andrea Boschin

SOFTWARE & CLOUD ARCHITECT
SENIOR FULL STACK DEVELOPER · SCRUM MASTER

Dear Hiring Manager,

My name is Andrea Boschin. I am a Software & Cloud Architect and Senior Full Stack Developer with more than 25 years of experience in enterprise software, primarily on the Microsoft stack. I have grown from hands-on development to designing architectures, leading cloud transformations and guiding development teams, while maintaining a strong passion for writing code. For ten consecutive years (2007–2017), I was a **Microsoft MVP**, recognized for technical expertise and community contribution.

Today I work at Bludata as Software Architect and Head of Cloud Transition, leading the transformation of a long-established Delphi product into a cloud-native SaaS platform on Microsoft Azure. My key areas of expertise include:

- **Azure cloud architecture:** leading the migration of a legacy Delphi system to a multi-tenant .NET / Azure SaaS platform serving 4,000+ customers.
- **Agentic AI engineering:** daily use of Claude Code and OpenAI Codex, multi-agent workflows and team-wide AI development practices.
- **Architecture & DevOps:** microservices, event-driven systems, Kubernetes and automated deployment with Azure DevOps.
- **Team leadership:** Scrum Master, coordination of up to six development teams and developer mentoring.

I believe in SOLID principles, clean architecture, agile teams and knowledge sharing, and I enjoy mentoring developers and building strong teams.

I am looking for Software / Cloud Architect or Senior Full Stack Developer roles, also open to Tech Lead or Scrum Master positions, preferably full-time remote, in Italy or internationally.

Thank you for your consideration.

Main expertises

- .NET Core & .NET Framework
- Agentic AI (Claude Code, Codex)
- AI-assisted & multi-agent dev
- Agile programming
- Angular & AngularJs
- Software Architecture
- ASP.NET
- Azure Cloud Architecture
- Azure DevOps
- Azure PaaS services
- C#
- Continuous Integration/Dep.
- Docker
- Entity Framework
- HTML
- Kubernetes
- Linux/Bash
- Microservices
- MongoDB
- Object Oriented
- PowerShell
- Project Management
- RabbitMQ
- SCRUM Master
- SOLID
- SQL/T-SQL/PLSQL
- SQL Server
- Typescript
- Javascript

2007-2017

Microsoft® MVP Most Valuable Professional

Work Experiences

Timeline

2024 to Current

Bludata S.r.l.

From 2/2024 to today

Software Architect and Head of Cloud Transition. Leading the transformation of an optical retail management system, originally built with Delphi, into a cloud-native, multi-tenant SaaS platform based on .NET 9/10 and Microsoft Azure, currently serving more than 4,000 customers.

- **Azure cloud architecture**: designed the multi-tenant architecture using Azure App Services, Azure Functions and Service Bus, with a hybrid SQL Server / MySQL data layer, Azure AD B2C identity and event sourcing.
- **DevOps**: designed and built the automated deployment and update platform delivering the solution across the entire customer base through Azure DevOps.
- **Agentic AI engineering**: integrated AI coding assistants into daily development, moving from GitHub Copilot to Claude Code and OpenAI Codex for code generation, refactoring, testing and AI-assisted code review.
- **Multi-agent development**: designed and coordinated multi-agent workflows and established team-wide practices through shared guidelines, agent configurations (CLAUDE.md, AGENTS.md) and review rules.
- **AI in DevOps**: implemented agents for pull request analysis, documentation generation and infrastructure scripting.
- **Scrum & leadership**: provided technical leadership and supported agile delivery across the development team.

Technologies: .NET 9/10, ASP.NET Core, C#, Entity Framework, Web API, SQL Server, MySQL, EventStoreDB, Azure App Services, Azure Functions, Azure Service Bus, Azure AD B2C, Azure DevOps, Claude Code, OpenAI Codex, GitHub Copilot

2020

Beantech S.r.l.

From 11/2020 to 1/2024

Senior Solution Architect for an IoT product ingesting high-frequency data, with stream processing, big data analysis and MLOps. Defined the software architecture and coordinated 6 development teams to deliver a reusable, configurable product deployed on Kubernetes, including DevOps pipelines and testing strategies.

Technologies: .NET 5/6, ASP.NET Core, C#, Python, SQL Server, MongoDB, InfluxDB, EventStoreDB, RabbitMQ, Kafka, Keycloak, Angular, Docker, Kubernetes, Azure DevOps

DBA Progetti S.p.a.

2016

From 12/2016 to 11/2020

Senior Developer, Architect, tutor and Scrum Master for IWMS and port management products, built on a microservices, message-based architecture and distributed both on-premise and on Azure. Worked with the engineering team to build the microservices platform.

Technologies: ASP.NET Core, C#, SQL Server, MongoDB, Graph DB, RabbitMQ, WSO2 API Manager, Identity Server, Xamarin, Angular, Docker, Azure DevOps, Azure Cloud Services

Eurosystem S.p.a.

2015

From 12/2015 to 12/2016

Senior Developer on a service-oriented platform and AngularJS toolkit integrated into the company's DotNetNuke portal, and on the migration of legacy Visual Basic 6 programs.

Technologies: ASP.NET, C#, Web API, Entity Framework, SQL Server, AngularJS

ASI S.r.l.

2012

From 01/2012 to 12/2015

Senior Developer on the evolution of a custom ERP and document management product: UI/UX redesign, WCF backend development, analysis and training of team members.

Technologies: ASP.NET, C#, WCF, WPF, Silverlight, Entity Framework, SQL Server

Freelance consultant

2007 – 2017

2007-2017 (overlapped to other employment)

Alongside employment, during the MVP years: consultant, trainer and tutor, library development and support to software design and development organization for many companies.

Earlier experience (1998 – 2011)

1998 – 2011

2007 – 2011 · **Select Digital Service / TMOB** – Senior Developer, real-time GPS data platform

2005 – 2007 · **MM-One** – Developer, CRM portal and custom CMS (AirDolomiti website)

2004 – 2005 · **Archeometra** – Analyst/Engineer, .NET healthcare reporting solution

2002 – 2004 · **Seven** – Developer, SCORM e-learning platform with an early AJAX viewer

2000 – 2002 · **Niunet** – Developer, used-car sales portal for Il Sole 24 Ore

1998 – 1999 · **Unisys** – Consultant/Developer, R&D web publishing (ASP, Oracle 8i)

Personal skills

Mother tongue: Italian

English

LANGUAGES

UNDERSTANDING		SPEAKING	
Listening	Reading	Spoken interaction	Spoken production
B1	B2	B1	B1

Levels: A1 and A2: Basic user - B1 and B2: Independent user - C1 and C2: Proficient user
Common European Framework of Reference for Languages

I regularly used English for Scrum ceremonies and technical discussions in teams with non-Italian-speaking members.

Communication skills

COMMUNICATION SKILLS

Good level in preparing and presenting technical talks. As a MVP and in my work experience I had a lot of opportunities to present technical speeches in front of huge audiences, up to to 200 people. I also have a good tutoring skill that I've improved training developers in my teams.

Management skills

MANAGEMENT SKILLS

Strong leadership and team collaboration skills, developed coordinating multiple development teams and as a certified Professional Scrum Master. Experienced in defining team practices, including the adoption of agentic AI tools in the development workflow.

Job related skills

JOB SKILLS

In-depth knowledge of the Microsoft stack (.NET, Azure) and of cloud-native, distributed architectures, with hands-on experience on other platforms (see work experiences). Daily user of agentic AI tools (Claude Code, OpenAI Codex) for development, migration and automation.

Good understanding of UI/UX related themes due to a art related studies.

Digital skills

SELF-ASSESSMENT

Information processing	Communication	Content creation	Safety	Problem-solving
Proficient user	Proficient user	Proficient user	Proficient user	Proficient user

Good knowledge of Office, with a major focus in Word, Excel and PowerPoint.

Education

Professional Scrum Master I (PSM I)

2018 – Scrum.org, Milano

Graduated in Arts of Goldsmith

1987 - National Institute of Art, Venezia (Italy)

My school degree, that is not related with my long work experience in the software engineering, gave me a good knowledge in craftmanship and an important accent to my creative skills. I'm used to say that I currently have strong engineering principles that I use with a creative mind, thanks to the days spent in the art & crafts field.
